### **INFRASTRUCTURE**

Most schools in the Kyrgyz Republic have electricity, piped and clean water, dedicated eating areas/cafeterias and kitchens. Some have latrines and flush toilets. School meals are prepared on school grounds in closed cooking areas that have electricity, refrigeration, electric or gas stoves, and storage areas.

### **SPECIAL NOTES**

Information used in this report is from third-party sources, primarily the United Nations World Food Program and Mercy Corps, both of which are involved with the National School Feeding Program in the Kyrgyz Republic. Some data from UNESCO was used to complete this report.

### NUTRITION

School feeding program(s) include/involve the following:

V	Fortified foods
	Bio-fortified foods
	Micronutrient supplements
V	Nutritionists involved
	Special training for cooks/caterers in nutrition
V	Objective to meet nutritional goals
V	Objective to meet educational goals
V	Objective to provide a social safety net
	Objective to reduce obesity

### Food items fortified:

Grains/cereals, oil

### Micronutrients added to fortified foods:

Iron, Vitamin A, Zinc, Folate, Vitamin B12, B1, B2, B3

### **ADDITIONAL INFORMATION**

This program used nutrition, food and health education to prevent or mitigate overweight/obesity. Special training or certification programs on nutrition, portions/measurements, menu planning, food safety/hygiene and basic cooking skills were required for cooks/caterers.

Agency: Ministry of Education and Science

Website: https://edu.gov.kg Email: minedukg@gmail.com

### **SUCCESSES AND CHALLENGES**

The Kyrgyz Republic has a universal national school meal program that covers all 595,000 students enrolled in schools. 215,000 school children receive optimized hot meals with support from international organizations, while 380,000 students receive basic bun and tea as snack since the schools do not have adequate kitchen infrastructure to independently prepare hot meals.

The government initially funded the school feeding on the basis of 5 Kyrgyz Som (.07 USD) per child per day and then increased the funding to 7 Som (.10 USD) per child per day (.14 USD per day per child in remote or high-mountainous areas).

(This information is from https://documents.wfp.org/stellent/groups/public/documents/communications/wfp288645.pdf)

Both the ministry and the public support the goal of improving school meals nationwide. There are multiple state-level standards and requirements, however, which are not yet uniformly and universally implemented.

### **RESEARCH NEEDED**

NR

# NATIONAL SCHOOL FEEDING PROGRAM

**Lead implementer(s):** Ministry of Education and Science

### **OBJECTIVES:**

- To meet educational goals
- To provide a social safety net
- To meet nutritional and/or health goals

### **MODALITIES OF PROVIDING STUDENTS WITH FOOD:**

• In-school meals (snack of bun and tea or hot meal)

### **TARGETING:**

Universal

## HOW MANY STUDENTS RECEIVED SCHOOL FOOD IN 2018-19 SCHOOL YEAR?

School level	# Students	% Girls	% Boys
Pre-school	5,000	50%	50%
Primary school receiving hot meals	210,000	50%	50%
Primary school receiving bun and tea	380,000	50%	50%
Secondary school	N/A		
Total	595,000	50%	50%

### **FOOD ITEMS:**

Grains/cereals\* Dairy products Salt
Legumes and nuts Eggs Sugar
Roots/tubers Green, leafy vegetables Oil\*
Meats Other vegetables
Poultry Fruits

### \* fortified

### **FOOD SOURCES:**

Yes - Purchased (domestic)
O - Purchased (foreign)
Yes - In-kind (domestic)
Yes - In-kind (foreign)

### **NOTES:**

The government program serves as the umbrella and provides a bun and tea to more than half of the primary school students in the country. The United Nations World Food Program and Mercy Corps provide hot meals for 215,000 students—including 5,000 pre-schoolers. Combined, these activities achieved universal coverage for enrolled primary school students. Government per-student spending was higher for students in remote and highly-mountainous areas.
