

# Tetra Laval Food for Development

Increasing the World's Access to Safe Food

Providing practical food safety  
solutions

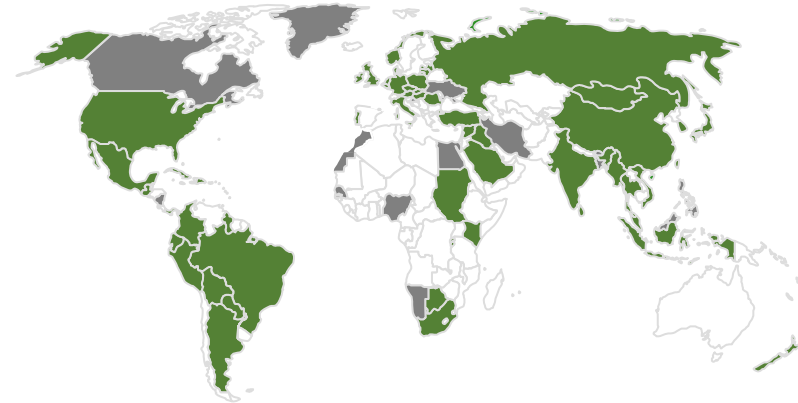

# Tetra Laval

The Tetra Laval Group consists of three industry groups, Tetra Pak, Sidel and DeLaval, all focused on technologies for the efficient **production, processing and packaging of food**.

# Our History & Tradition in School Feeding

For more than 57 years, we have participated in the development of school feeding and nutrition programmes, which have provided value to children and society around the world. Today, more than 68 million children in 56 countries received milk or other nutritious beverages in Tetra Pak packages in their schools.

# OUR VISION

*We commit to making food safe  
and available, everywhere.*

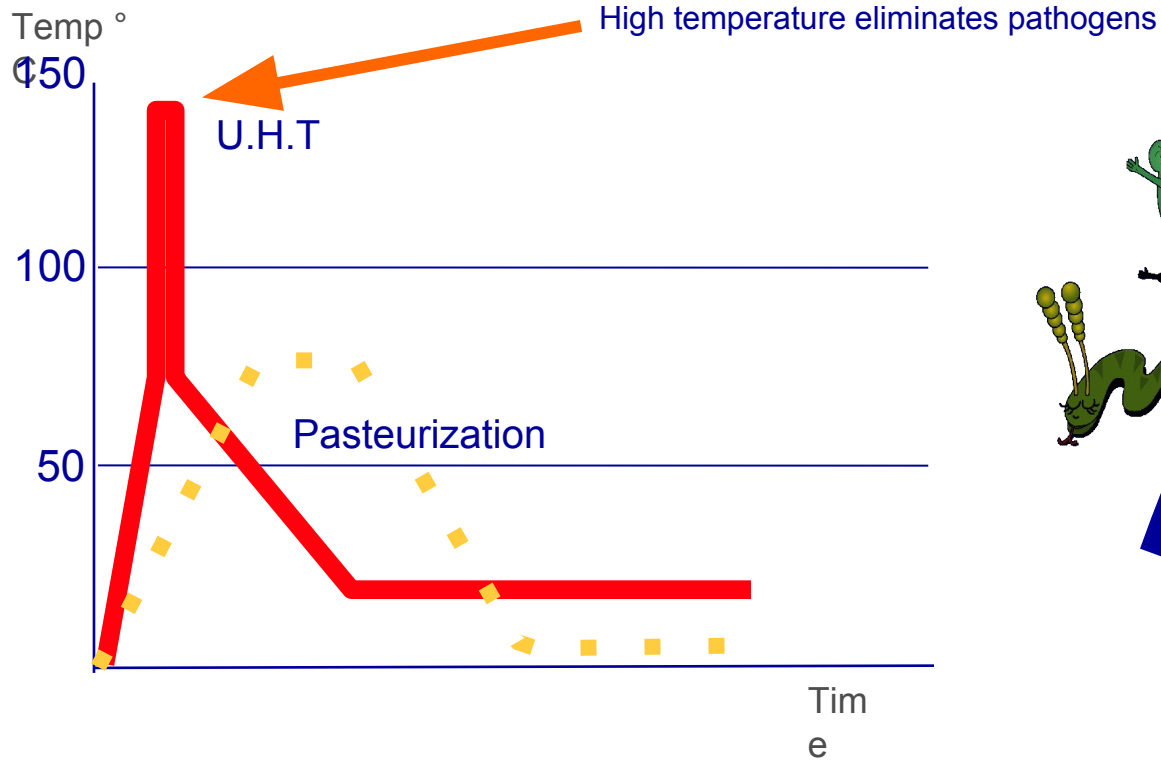

# Existing infrastructure challenges in SFP

## Covid-19 highlights need for increased food safety

- ▶ Lack of access to electricity or inconsistent supply
- ▶ Inadequate hygiene in kitchens to prepare school meals
- ▶ Lack of potable water
- ▶ Deficient infrastructure of schools
- ▶ Lack of roads require other means of delivery
- ▶ Flooding during the rainy season
- ▶ Covid-19 adds new challenge

# UHT Technology

# Tetra Pak Aseptic packaging

## 6 layers to Protect What's Good

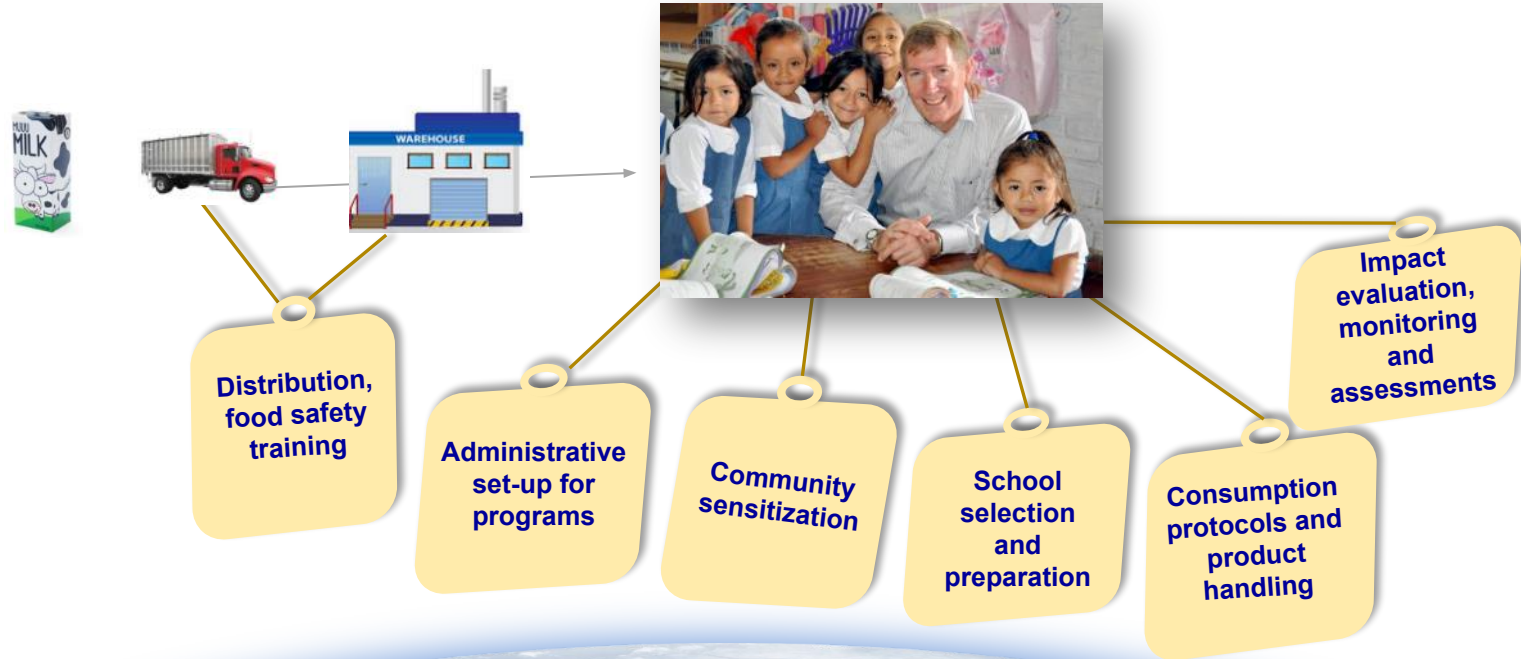

1. Polyethylene protects against external moisture
2. Paper for stability and strength
3. Polyethylene adhesion layer
4. Aluminum foil keeps out oxygen, light, and preserve flavours
5. Polyethylene adhesion layer
6. Polyethylene seals in the liquid

# Focus on food safety

We provide technical assistance and share best practices used in SFP around the world

# India

## Delivering milk, fruit, and vegetables to homes

- ▶ States are providing milk, fruit, vegetables, and ingredients used in the *Mid-Day Meal Scheme*
- ▶ Sent to the children's homes instead of being cooked in school and community kitchens.
- ▶ Vendors approved to deliver
- ▶ Coverage expanding

### State governments start home delivery of milk, fruits, vegetables and groceries

*This is aimed at avoiding panic among consumers for essential food items. Twelve thousand vendors have been approved in Uttar Pradesh to home deliver essential commodities, said Devesh Chaturvedi, principal secretary, agriculture, Uttar Pradesh. In the Delhi NCR region Mother Dairy doubled its supplies of fruits and vegetable in its 310 stores to 330 tonnes.*

By Madhvi Saly, Prashant Khar, ET Bureau | Last Updated: Mar 27, 2020, 11:12 AM IST

New Delhi | Chandigarh: Bringing relief to the consumers, Uttar Pradesh, Punjab, Haryana and Chandigarh administration have started home delivery and designated spots to sell fruits, vegetables, grocery items and dairy products from Wednesday.

This is aimed at avoiding panic among consumers for essential food items, said officials.

In a first of its kind initiative state governments in Uttar Pradesh, Punjab, Haryana & Chandigarh start home delivery of milk, fruits/ vegetables and groceries during lockdown.

COVID-19 CASES		Confirmed	Deaths
India	World	27,892	872

Twelve thousand vendors have been approved in Uttar Pradesh to home deliver essential commodities, said Devesh Chaturvedi, principal secretary, agriculture, Uttar Pradesh. He said the numbers will increase in the coming days, as district officials expand the coverage.
