SUCCESSES AND CHALLENGES

Successes related to school feeding in Monaco include the nearly universal coverage of the school catering program and the diversity of the lunch menu. School feeding in Monaco has generally not been affected by any setbacks in recent years.

EMERGENCIES/COVID-19 PANDEMIC

Schools in Monaco were open throughout the 2020–2021 school year. The COVID-19 pandemic generally did not impact school feeding in the country. However, meals/snacks have been served at school in a very different way than before (e.g., with fewer children eating together at the same time).
